PSP1

DESCRIPTION

The Personal Switch Panel with one key is the smallest of AlsterAero's PSP series.

When connected to AlsterAero's DCU3 discrete control unit, the key can be backlit by white backlight. The DCU3 optionally serves as the external controller to the Cabin Management System.

In standalone mode the button switches a 50mA rated contact.

The high quality milled metal bezel can be coated to customer request, the keyboard foil symbols and colours can be adapted to the functionality required.
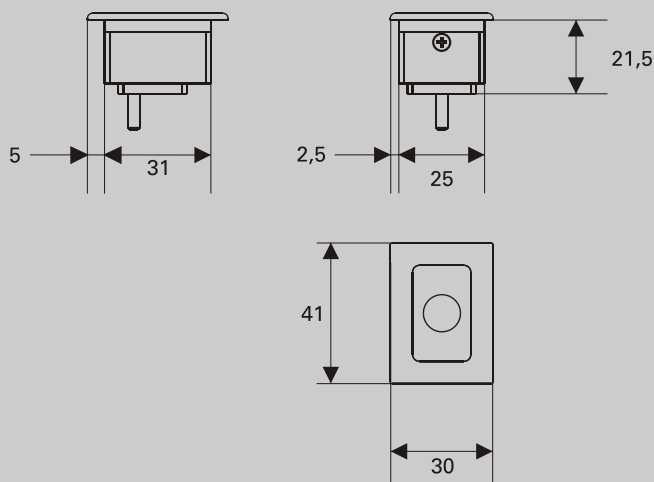

FEATURES

- one key with click feedback
- white backlight when connected to DCU3 (other colours upon request)
- 50mA key pushbutton switch
- designed for interfacing to AlsterAero's DCU3
- high quality milled metal surface
- high quality surface treatment of customer's preference
- fully customizable keyboard foil, any RAL colour possible
- single mounting bolt
